

# Reorganization of Department of Alcohol and Drug Programs Functions

*Future placement of ADP functions, programs, funding, and positions*

Function or Program	Recipient Department	State Operations	Local Assistance	Positions	Total
<p><b>Administration of the federal Substance Abuse Prevention and Treatment (SAPT) Block Grant</b></p> <p>The Department of Alcohol and Drug Programs (ADP) is designated by the federal government as the Single State Authority (SSA) responsible for administering and coordinating the State’s comprehensive efforts in prevention, treatment, and recovery services for alcohol and drug (AOD) abuse, substance use disorders, and problem gambling. The State’s system of care for individuals and families dealing with AOD concerns is anchored in the many components listed below.</p> <p><b>Data collection reporting and analysis</b></p> <p>Develop, contract for, and maintain data collection for analytical purposes which include fiscal, programmatic and county performance data as well as for the dissemination of information regarding California’s publicly funded alcohol and other drug prevention and treatment service system. The data collected, and other data, are used for planning, federal accountability measures and continuous quality improvement of the AOD service delivery system.</p> <p><b>Statewide Needs Assessment and Planning (SNAP)</b></p> <p>The federal SAPT Block Grant requires an annual Needs Assessment Report which analyzes treatment and prevention data, as well as prevalence, consumption and consequence trend data that identifies AOD service needs and gaps in California’s publicly funded system. This systematic needs assessment is instrumental in identifying local and statewide priority action plans and establishing data-informed baselines for the action plans required by the BG.</p>	Department of Health Care Services (DHCS)	\$19,635,000	\$285,937,000	161.5	\$305,572,000

<p><b>Provide technical assistance (TA) and training to counties and providers</b></p> <p>Provide TA and training in support of a comprehensive, effective and efficient AOD service system that continuously improves prevention and treatment services. Inform providers of emerging best practices and evidence based practices through a variety of approaches, including webinars, regional trainings, county specific TA efforts and statewide conferences. Certify that counties are meeting the nationally recognized ten-key components of a drug court program.</p> <p><b>Prevention Functions / Activities</b></p> <p>Prevention Services performs the following functions: apply for, administer, coordinate, monitor the SAPT Block Grant; collect, analyze, monitor, report prevention services data; develop workforce; provide TA and training to counties providers and other service systems; provide multi-lingual public information, education, materials, referral services through the Resource Center (RC); and, apply for, administer, coordinate, monitor discretionary grants; (e.g. Strategic Prevention Framework-State Incentive Grant - includes position for federal reporting, evaluation and local data collection).</p> <p><b>Public information, education and information dissemination through the RC.</b></p> <p>The federal SAPT Block Grant requires that the State provide primary prevention services that fall under six specific strategies. The RC disseminates multi-lingual information and educational materials on AOD use/abuse through a Clearinghouse, Lending Services, and a toll-free AOD service referral and information line.</p>	DHCS (continued)

<p><b>Administration of SAMHSA Discretionary Grants</b></p> <p>There are currently two discretionary federal grants:</p> <ol style="list-style-type: none"> <li>1. Strategic Prevention Framework State Incentive Grant (SPF SIG) - Will refine the use of the Strategic Prevention Framework at the State and local levels and provide evidence-based alcohol and other drug prevention programming to Californians most in need of services. ADP is partnering with the Department of Public Health for collection, analysis and monitoring of epidemiological data sources for statewide needs assessment, planning, and outcomes.</li> <li>2. Access to Recovery (ATR) Grant - This grant provides for substance abuse treatment and recovery support services for youth and young service members/veterans in five target counties (Butte, Los Angeles, Sacramento, Shasta, and Tehama). The program will help address the unmet needs, service gaps, barriers, and disparities that youth and young veterans face in accessing adequate, quality substance abuse services.</li> </ol>	DHCS (continued)				
<p><b>Parolee Services Network (PSN)</b></p> <p>Community-based alcohol and drug treatment and recovery services to state parolees in 17 PSN counties, through funding from the Department of Corrections and Rehabilitation (CDCR).</p>					
<p><b>Program Certification</b></p> <p>Ensures programs and 24-hour residential non-medical service providers meet appropriate safety and programmatic standards and safeguards for the persons served.</p>					
<p><b>Program Licensing</b></p> <p>Ensures programs and 24-hour residential non-medical service providers meet appropriate safety and programmatic standards and safeguards for the persons served.</p>	Department of Social Services (CDSS)	\$4,529,000		36	\$4,529,000

<p><b>Counselor Certification / Complaints</b></p> <p>Approval of certifying organizations (COs) for the purpose of registering and certifying individuals to provide AOD counseling. Each CO must meet regulatory requirements in order to remain an approved CO. Function also includes investigating complaints specific to inappropriate conduct by counselors and registrants.</p>	Department of Public Health (CDPH)	\$8,002,000	\$4,000,000	34	\$12,002,000
<p><b>Narcotic Treatment Program (NTPs) Licensing and Monitoring</b></p> <p>NTPs provide replacement narcotic therapy in an outpatient, medically supervised setting to people who are addicted to opioids. Services include, but are not limited to, replacement narcotic medication and counseling. ADP has sole authority for the licensure of NTPs. Initial onsite reviews are completed prior to licensure of NTPs. Annual reviews are required to ensure ongoing compliance with federal laws, State statute and regulatory requirements.</p>					
<p><b>Driving Under the Influence (DUI) Programs Licensing and Monitoring</b></p> <p>The purpose of the DUI program is to reduce the number of repeat DUI offenses by persons who complete a State-licensed DUI program, and to provide participants an opportunity to address problems related to the use of alcohol and/or other drugs. ADP's role is to issue, deny, suspend, or revoke licenses of driving-under-the-influence (DUI) alcohol and drug education and counseling programs.</p>
