

The Federal Defund of Planned Parenthood Threatens Care For All in California

Planned Parenthood Affiliates of California

 The 109 Planned Parenthood health centers in California continue to provide care to patients in Medi-Cal programs, since September, **without reimbursement**.

\$430+ million

in services provided to Medi-Cal enrollees annually

 **-\$1.1 million**

in revenue loss **per day** since September 11

Since July 2025

5 PP health centers have **closed**  *that's more than any other state* & health centers have been forced to **cut primary care and behavioral health services** impacting **tens of thousands** of patients

Californians could lose

Contraception • STI testing & treatment • Preventative Care • Gender-Affirming Care • Abortion Care

Planned Parenthood is fighting to preserve access to

100K

Cancer Screenings

500K

Contraceptive Visits

2.6 million

STI tests

47% of female Medi-Cal enrollees choose Planned Parenthood for contraceptive care

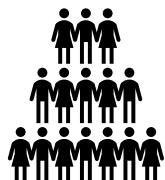

Planned Parenthood health centers provide

25,000

patients visits **every week**

for people from **all 58 California Counties**

Without Planned Parenthood in California

Some Californians, especially in rural areas, will need to travel **200+ miles** to the next reproductive health care clinic.

Remaining publicly supported clinics would need to, impossibly, **double their capacity** to maintain existing levels of care in the state.

Californians have **received care through Planned Parenthood**

1 in 4

80+%

3 in 4

of patients who visit Planned Parenthood health centers **rely on Medi-Cal**

patients identify as **people of color**
